Aditya Pun

Software Engineering Student

adityapun00@gmail.com| Kathmandu, Nepal
linkedin.com/in/adityapun | github.com/adityapun-arch

SUMMARY

Undergraduate software engineering student with working knowledge of Python, HTML and CSS, and hands-on practice with Git and GitHub. Seeking an internship or entry-level web development role to build real-world experience and contribute to a team.

EDUCATION

Patan College for Professional Studies (PCPS), Kathmandu
Bachelor in Software Engineering (in progress) 2026 – Present

Trinity International College, Kathmandu
+2 Science *[*2023-2025]
Western English Medium Secondary School
SEE *[*2023]

TECHNICAL SKILLS

Languages & Web: Python, HTML, CSS
Tools: Git, GitHub, VS Code
Design/Modeling: UML (Visual Paradigm)
Languages Spoken: Nepali (Native), English (Fluent)

PROJECTS

GitHub Portfolio **Python, HTML, CSS**
Maintain a public repository of web utilities, Python scripts and UI prototypes, using Git and GitHub for version control and documentation. github.com/adityapun-arch

Taxi Management System **UML, Visual Paradigm**
Designed UML models for a taxi booking system covering the flows of each actor (passenger, driver and others), including an activity diagram of the full passenger journey: login, fare estimate, booking, optional cancellation, ride, payment, rating and receipt.

EXPERIENCE

Fresher (Entry-Level)
Building practical web development skills through self-directed projects on GitHub and UML modeling work, and eager to learn on the job and contribute to a team.
